HUSTON PATTERSON EXPANDING SERVICE INTO CANADIAN MARKET

DECATUR, ILL. – Huston Patterson Corp., Decatur, Ill., has named Steve Garceau as client services manager serving the Canadian market.

“Despite the troubled economy, Huston Patterson is committed to realizing our vision to be the largest privately owned package printer in North America,” says Huston Patterson Vice President of Sales and Marketing Tonya Kowa-Morelli. “Offering our exceptional craftsmanship and service to the Canadian market is key. After all, we know clients need the best products and services to compete during these difficult times.”

Garceau previously served in management positions for local bars and restaurants. He also served our country through the United States Air Force by servicing F-16, A-10, and B-1B aircraft. His education includes an associate’s degree in aircraft maintenance from the Community College of the Air Force and a bachelor’s degree in integrated marketing communications from Southern Illinois University. He has traveled and lived in the Netherlands, United Kingdom, Germany and the Middle East, which has provided him a keen understanding of different societies and cultures.

“Clearly, Huston Patterson has a competitive advantage in quality,” says Garceau. “Our decision to enhance and expand our service into Canada will raise the bar in overall client satisfaction. Our border will not hinder us in doing what we do best...exceeding our clients expectations.”

As a world-class printing organization, Huston Patterson provides unparalleled value and performance through effective use of technology and craftsmanship by incorporating the unifying principles of trust, integrity and commitment.
