HUSTON PATTERSON NAMES NEW DIRECTOR OF LOGISTICS

DECATUR, ILL. – Brett Scroggins has been named the new Huston Patterson Corp. Director of Logistics. Scroggins will replace Ann Good, who recently retired from the large format printing company based in Decatur, Ill.

“With ever-increasing distribution costs due to escalating fuel prices, our logistics department is facing more challenges than ever before,” says Huston Patterson Vice President of Manufacturing Donald Ellis. “With Brett’s leadership, we will continue to deliver client orders on time, every time, in the most efficient manner.”

Scroggins has worked in the logistics and transportation industry for many years, most recently as operations manager for BBK Services, also in Decatur.

“I have found that every day is a new adventure in logistics,” says Scroggins. “Logistics is like a big jigsaw puzzle. Piecing it all together takes a lot of thought and follow-through. It’s all about finding the best solutions for every client.”

Scroggins will also play a key role for Huston Patterson’s new “Arrive in 5” Program. The program allows Huston Patterson clients to submit artwork on one day and receive shipment of the finished printed project at their dock on the fifth day.

As a world-class printing organization, Huston Patterson provides unparalleled value and performance through effective use of technology and craftsmanship by incorporating the unifying principles of trust, integrity and commitment. For more information, visit www.experiencetheevolution.com.
